

## Thoroughly Proven.

Recommended by leading spa manufacturers, the patented mineral-bed technology of Nature2 SPA mineral sanitizer has been extensively tested and is proven to sanitize your spa more effectively than chlorine at spa temperatures.

Compared with chlorine and bromine sanitizing systems, Nature2 technology reduces the discomfort of eye and skin irritation, bleached out swimsuits and discourages scum lines in your spa without the unpleasant odors associated with harsh chemicals.

### Test the Water.

To help keep your spa water at its optimum level, use Nature2 SPA Test Strips. These strips make testing spa water faster and easier than ever. Just dip and swirl the test strip. See accurate and reliable results on the levels of MPS, alkalinity, and pH in your spa's water.

For additional information about Nature2 SPA Sanitizer and Nature2 SPA Test Strips, ask your spa care professional.

*PURE JOY.*

*NATURE<sup>2</sup> SPA WATER —  
THE ULTIMATE SPA  
EXPERIENCE*

Experience Nature<sup>2</sup> SPA mineral sanitizer and discover the joy of relaxing in crystal clear, luxurious spa water. When you sanitize your spa water with Nature<sup>2</sup> sanitizer, you are able to create the perfect spa experience, free of the odors and irritants that chlorine and bromine can cause. Nature<sup>2</sup> SPA even helps your spa water stay balanced, making your spa easier to maintain.

With Nature<sup>2</sup> SPA you can finally sit back, relax and enjoy a soothing spa experience. Isn't that the point of owning a spa in the first place?

The completely self-contained Nature<sup>2</sup> SPA mineral sanitizer is easy to install. There are no moving parts. Nature<sup>2</sup> SPA just slips into your spa's filter, where it works as part of your spa's existing water circulation system to keep your water clean and bacteria free. If your spa is equipped with an ozonator, a Nature<sup>2</sup> SPA mineral sanitizer will greatly enhance its performance. Ask your dealer for complete details.

Nature<sup>2</sup> SPA mineral sanitizer is EPA registered and can be used effectively for 4 months. Best of all, it eliminates the messy and tedious chore of constantly adding chlorine or bromine to the spa. After start-up, a small maintenance dose of non-chlorine based oxidizer is all you need. Unlike chlorine and bromine, the Nature<sup>2</sup> SPA mineral sanitizer is unaffected by spa temperatures.

**Installation  
Instructions**

1. Remove spa filter cover
2. Drop in your spa filter
3. Replace spa filter cover
4. Done
